Easter, Ramadan, Passover and other celebrations:

Message to stay at home for the long weekend and holiday period

To keep our loved ones safe, we need our communities to stay home and spend this time with their immediate households only.

We encourage community members to connect with extended family and friends by phone, webcam or social media instead. By doing this we will help stop the spread of COVID-19, together.

Please support this initiative by sharing the following messages on your social media pages, websites and promoting through your networks:

From NSW Health
